

## High-Profile: People

### Future Leaders in Construction” Graduates

Concord, NH – Cobb Hill Construction staff members Angie Borden, controller and Ed Rimm, project manager, recently completed a six month “Future Leaders in Construction” program sponsored by the NH chapter of Associated Builders and Contractors (ABC).

Rimm

Borden

enhance the leadership skills and knowledge of high-potential construction professionals.

Through six monthly educational sessions, peer-to-peer networking, and community involvement activities, ABC’s FLIC prepares professionals for leadership roles within their company and with ABC.

The program was designed to

### Capitol Construction Adds Two

Boston, MA - Capitol Construction announced the addition of two experienced professionals to its growing team. Michael Garrity was hired as senior estimator and John Creighton was hired as superintendent.

Creighton

Garrity

tive bidding. Prior to joining Capitol Construction, Garrity spent 11 years at Modern Continental Construction Co. in Cambridge.

Creighton will participate in all pre-construction, scope review, scheduling

and execution of work in the field. He also will act as the liaison between owner, architect, building manager and contractor. Creighton brings ten years of experience to Capitol Construction with a variety of roles and positions in Boston’s construction industry.

Garrity is responsible for schematic and conceptual estimating, presentations of budgets to architects, engineers, and clients, as well as maintaining subcontractor relations. In addition, he is in charge of scoping out subcontractor proposals and competi-

### Damien J. Raffle Joins SELLS

Brighton, MA - Chas. H. Sells, Inc. (SELLS) announced that Damien J. Raffle has joined the SELLS team as project surveyor and will work out of their Boston area office located in Brighton.

Raffle is a project surveyor with a solid background in construction layout, topographic surveys and boundary analysis. He has headed multiple CAD operations on various topographic projects, ALTA/ACSM surveys and construction and as-built surveys, managed large residential estate projects, and managed crews working on various

construction sites ranging from single-story dwellings to multi-level high rise buildings.

The Boston office provides land surveying, GPS, aerial mapping, and GIS support services to public and private sector clients throughout the region. This office meets the needs of SELLS’ growing Boston client base and assists with new project opportunities. SELLS has the distinction of having mapped the entire City of Boston on three different occasions over the last 20 years for CAD and GIS applications.

### Consulting Engineering New Associates

Middletown, CT - Consulting Engineering Services announced the promotion of Steven T. Martyszczyk, LEED AP and Scott A. Sullivan, PE, LEED AP to the position of associate.

Martyszczyk

Sullivan

Martyszczyk specializes in custom building system solutions to suit the needs and performances of residential and commercial clients. Well-versed in the latest technology for electrical and mechanical systems, he is able to offer a variety of design choices to create the ideal climate for our residential clients. He has been with

the firm since 2001.

Sullivan leads a design team specializing in comprehensive rehabilitation projects and design of new sustainable design projects

throughout Southern New England. He has served as project manager for large scale construction programs in successful projects over the past decade. He joined the firm in 2003.

Consulting Engineering Services is a 60-person firm with locations in Middletown and Boston, MA.

### GEI Hires Desrochers

Boston, MA - GEI Consultants, Inc., announced that Roy D. Desrochers, P.E. has joined the firm as project manager for sensory technology. Desrochers specializes in sensory technology related to odor and tastes and its practical application to environmental and consumer challenges.

Desrochers

Desrochers will be responsible for expanding GEI’s sensory analysis service as well as screening and training GEI employees as sensory analysts. He will market and develop new clients, provide project management using sensory

technology for existing GEI clients, and support existing cases in chemistry and geology.

Prior to joining GEI, Desrochers served as founder and president of DesSense, Inc. where he managed complex cases for clients around the world. Previously, he spent over 18 years at the

international consulting firm Arthur D. Little as a senior leader in the Sensory Technology Unit, and ultimately as manager of the unit.

### Fusco Promotions

New Haven, CT - Fusco Corporation announced the following promotions:

John (Jack) Scaramozza, to senior vice president. He has 47 years of construction experience with Fusco. For the last 27 years he has served as vice president, contract administration. Scaramozza has oversight of the company’s construction operations.

Dennis Reilly to vice president, chief financial officer. He has a 19-year background in real estate/construction accounting.

Gregory Plasil to vice president/project executive. He has 33 year’ construction experience and most recently served as senior project manager on some of Fusco’s

more complex projects.

Eugene Festa, to Vice President. He has 36 years of construction experience with Fusco. He will maintain his role of senior project manager, managing larger, more complex projects.

Joseph Castellano, to chief legal officer. He has 13 years of construction experience and will be responsible for contract administration and compliance.

Seth Shepard to director of preconstruction/purchasing. He has been in the construction industry for 35 years, 13 years with Fusco, and has served as the company’s purchasing director for the past five years. He is now in charge of the preconstruction process from project inception to bidding/purchasing phases.

### Consigli Promotes Thiboutot

Milford, MA - Consigli Construction Co., Inc. has promoted Eric Thiboutot to the position of project manager.

In his new post, Thiboutot will be responsible for managing the overall construction schedule and budget at the Emma Willard School in Troy, NY. He also will provide the client with daily construction updates, and manage coordination efforts between Consigli, trade staff and the all-girls school, which was founded in 1814.

Thiboutot

Thiboutot has played a key role in several large projects, including the recently completed renovation of the 48,000 sf Berkshire Dining Hall at UMass.- Amherst.
