CES Welcomes Kim Kingston

Canton, MA (April 29, 2014) – Consulting Engineering Services (CES) is excited and pleased to announce the addition of Kim Kingston to their team. Kim joined CES on April 28th to lead Business Development activities for the New England region working from the firm’s Canton, MA office. A licensed attorney, Kim brings to CES over 20 plus years of A/E/C industry related experience, including site development, project management, marketing and business development. Most recently, Kim served as the Director of Business Development at Howard/Stein-Hudson Associates, Inc. a Boston based consultancy providing transportation planning/engineering, urban planning and site/civil engineering services throughout New England. Kim has an energy and passion for building new relationships and will be focusing primarily on institutional and commercial market sectors. Her results-driven motivation and enthusiasm will undoubtedly be an asset as CES continues its growth in the region.
