**Consulting Engineering Services Raises \$10,000 for Scholarship Fund**

Middletown, CT (October 9, 2013) - On October 4, 2013 Consulting Engineering Services (CES) held their eighth annual charity golf tournament at The Tunxis Planation Country Club in Farmington, CT. All proceeds of this four person scramble went towards the George V. Keithan Sr. Memorial Scholarship Fund.

CES started this fund in honor of CES' President's, George V. Keithan, Jr., father who passed away in 2009. The scholarship fund benefits students who are graduating from Mercy High School and Xavier High School pursuing a career in engineering. These schools were chosen as the recipients due to the long standing history the Keithan family has with these institutions, all members of the family are either alumni or current students.

The tournament was a great success, hosting 160 players from over 30 companies. The tournament details included 18 holes of golf with a cart, lunch, dinner and a raffle. Generosity was the overwhelming theme of the day allowing CES to raise \$10,000 to be split evenly amongst each school.

*Consulting Engineering Services has a staff of over 60 experienced professionals who specializes in mechanical, electrical, fire protection and plumbing engineering services for analysis, design, and construction administration. We also offer services such as technology and security design, communications solutions and systems commissioning. As a leader in sustainable building systems design, we have 14 LEED AP's on staff and all of our design professionals focus on implementing energy saving designs on each of our residential and commercial projects.*
