Consulting Engineering Services (CES) Promotes Employees from Within

Middletown, CT, Boston, MA (December 24, 2013) – Consulting Engineering Services, Inc. a mechanical, electrical, plumbing and fire protection consulting engineering firm with offices in Middletown, CT, Canton, MA and New York City specializing in designing leading edge MEP systems that go beyond meeting the energy code, are extremely proud to announce their promotions within the company. As of January 1, 2014 Associate Michael B. Walsh, P.E. will become the newest Principal of CES, Associate Peter J. Votto, P.E. a shareholder of the firm and Nicholas Fair promoted to an Associate as well as the Branch Manager of the CES Canton Office.

This new ownership and organizational structure will strengthen CES's commitment to their projects and clients plus support sustained growth into the future. CES looks forward to continue providing their clients with the best MEP engineering services available.

Consulting Engineering Services is a 60 person firm that specializes in mechanical, electrical, plumbing and fire protection engineering services for analysis, design and construction administration. We also offer services such as technology and security design, communications solutions and systems commissioning. As a leader in sustainable building systems design, we have 14 LEED AP's on staff and all of our design professionals focus on implementing energy saving designs on each of our high-end residential, commercial and institutional projects.
