## Middletown Firm Holds Toy Drive for Salvation Army

Middletown, CT (December 12, 2014) – Consulting Engineering Services (CES) held a toy drive following Thanksgiving, asking employees to donate gently used and new toys to the Salvation Army in Middletown.

The CES employees did not disappoint and were able to come together and donate over 150 toys, mostly all new ones too.

The toys will be passed out to families and children who have fallen on hard times and through the Angel Tree program at the Salvation Army, these children will wake up Christmas morning to presents under their trees.

*Consulting Engineering Services is a 75 person firm with offices in CT, MA, and NYC, that specializes in mechanical, electrical, fire protection and plumbing engineering services for analysis, design, and construction administration. We also offer services such as technology and security design, communications solutions and systems commissioning. As a leader in sustainable building systems design, all of our design professionals focus on implementing energy saving designs on each of our residential and commercial projects.*
